RENEWED PETITION FOR REVIVAL OF AN ABANDONED APPLICATION (UNINTENTIONAL) UNDER 37 C.F.R. 1.137(b)

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is in response to the Decision on Petition that was mailed October 4, 2007, to which a request for reconsideration of the decision must be submitted by December 4, 2007. Applicant hereby requests renewal and reconsideration of the petition to the Commissioner under 37 C.F.R. 1.137(b) to accept the delayed Amendment and Response to an Office Action for the above-identified application.

The Decision on Petition dismissed the filed petition for revival of the above-identified application because the petition did not include item (3), "a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137 (b) was unintentional." Submitted here with is a Declaration by inventor Donald O. Johnson as to the delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional.

Applicant respectfully requests that his petition receives reconsideration and be granted in view of the supporting Declaration, and that the late Amendment and Response, in reply to the Office Action mailed 7 July 2004, be accepted.

Enclosed are: (1) a Cover Letter entitled "Renewed Petition Under 37 CFR 1.137 (b); (2) a Declaration of Donald O. Johnson in Support of Petition; (3) a Transmittal Form; and (4) a Return Post Card.

Respectfully submitted,

Date 30 November 2007

Attorney Docket No.: TLR-5231 US

DECLARATION OF DONALD O. JOHNSON IN SUPPORT OF PETITION

I, Donald O. Johnson, declare as follows:

1. I am over eighteen years old, and reside at E5034 429th Avenue, Menomonie, WI, 54751, and make this declaration based on my personal knowledge.
2. I make this declaration in support of the Petition for Revival of an Abandoned Application (Unintentional) Under 37 C.F.R. 1.137(b) for the above-referenced application.
3. As to time period (1), the delay in reply that originally resulted in the abandonment, that time period being from July 7, 2004, to November 16, 2004, I attempted to make a suitable response to a First Office Action by amending the rejected claims. The Examiner indicated that the amendment was non-compliant and provided only thirty (30) days to file a compliant amendment. I then spoke with several individuals at the Patent Office and with the Examiner as to the requirements for a compliant amendment. Due to my inexperience in these matters,

I did not understand what was required for a compliant amendment response. In addition, I had been out of work for six (6) months during time period (1) and did not have the finances to contact either a patent attorney or an agent to represent me on this matter. Thus, I had no intention to abandon the patent application during this time period. My financial situation forced me to abandon the application, despite my intention to prevent abandonment.

4. As to time period (2), the delay in filing an initial petition pursuant to 37 CFR 1.137 (b) to revive the application, that time period being from November 17, 2004, to March 27, 2007, I continued to experience financial difficulties for the next two years and had no money to retain either a patent attorney or an agent to represent me on this matter. Again, I had no intention of abandoning the patent application during this time period. My financial situation prevented me from attempting to revive the application, despite my intention to revive the application. My financial situation finally improved sufficiently to retain an agent to represent me in this matter. I contacted patent agent Tipton L. Randall, Reg. No. 32,626, in late December 2007 and requested that he revive the abandoned patent application. Due to health problems, agent Randall was not able to prepare and file an initial petition pursuant to 37 CFR 1.137 (b) to revive the application until March 27, 2007. Thus, I had no intention to abandon the patent application during this time period. My financial situation forced me to delay revival of the application, despite my intention to do otherwise.

5. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that willful false statements may jeopardize the validity of the application or any patent issuing thereon.
